

§ 301.97-10 Treatments.

Treatment schedules listed in part 305 of this chapter to destroy the melon fruit fly are authorized for use on regulated articles. The following treatments also may be used for the regulated articles indicated:

(a) *Soil within the dripline of plants that are producing or have produced the fruits and vegetables listed in § 301.97-2(a) of this subpart.* Apply diazinon at the rate of 5 pounds active ingredient per acre to the soil within the dripline with sufficient water to wet the soil to at least a depth of ½ inch.

(b) [Reserved]

[65 FR 8636, Feb. 22, 2000, as amended at 67 FR 8465, Feb. 25, 2002; 70 FR 33268, June 7, 2005]

Subpart—West Indian Fruit Fly

SOURCE: 66 FR 6433, Jan. 22, 2001, unless otherwise noted.

§ 301.98 Restrictions on interstate movement of regulated articles.

No person may move interstate from any quarantined area any regulated article except in accordance with this subpart.¹

§ 301.98-1 Definitions.

Administrator. The Administrator, Animal and Plant Health Inspection Service, or any person authorized to act for the Administrator.

Animal and Plant Health Inspection Service. The Animal and Plant Health Inspection Service (APHIS) of the United States Department of Agriculture.

Certificate. A document in which an inspector or person operating under a compliance agreement affirms that a specified regulated article is free of West Indian fruit fly and may be moved interstate to any destination.

Compliance agreement. A written agreement between APHIS and a per-

son engaged in growing, handling, or moving regulated articles, wherein the person agrees to comply with this subpart.

Core area. The 1-square-mile area surrounding each property where West Indian fruit fly has been detected.

Day degrees. A mathematical construct combining average temperature over time that is used to calculate the length of a West Indian fruit fly life cycle. Day degrees are the product of the following formula, with all temperatures measured in °F: (Minimum Daily Temp+ Maximum Daily Temp)/2) – 59°=Day Degrees.

Departmental permit. A document issued by the Administrator in which he or she affirms that interstate movement of the regulated article identified on the document is for scientific or experimental purposes and that the regulated article is eligible for interstate movement in accordance with § 301.98-4(c) of this subpart.

Dripline. The line around the canopy of a plant.

Infestation. The presence of the West Indian fruit fly or the existence of circumstances that makes it reasonable to believe that the West Indian fruit fly is present.

Inspector. Any employee of the APHIS, U.S. Department of Agriculture, or other person authorized by the Administrator to perform the duties required under this subpart.

Interstate. From any State into or through any other State.

Limited permit. A document in which an inspector or person operating under a compliance agreement affirms that the regulated article identified on the document is eligible for interstate movement in accordance with § 301.98-5(b) of this subpart only to a specified destination and only in accordance with specified conditions.

Moved (move, movement). Shipped, offered for shipment, received for transportation, transported, carried, or allowed to be moved, shipped, transported, or carried.

Person. Any association, company, corporation, firm, individual, joint stock company, partnership, society, or other entity.

¹Any properly identified inspector is authorized to stop and inspect persons and means of conveyance and to seize, quarantine, treat, apply other remedial measures to, destroy, or otherwise dispose of regulated articles as provided in section 414 of the Plant Protection Act (Title IV, Pub. L. 106-224, 114 Stat. 444, 7 U.S.C. 7714).
